What's a CSA?

CSA stands for Community Supported Agriculture. It is a way of linking farmers directly with the people who want to eat freshly harvested food they grow.

In exchange for an upfront payment, CSA members receive a "share" of the farm's harvest. EAT FOOD DISTRIBUTORS' CSA is a cooperative program bringing fresh farm products from Vermont and Upstate, NY. We offer a variety of fresh food for the consumer while supporting small farms that produce specialty foods. Community Supported Agriculture is a great way to help build healthy farms, healthy local economies, and healthy people!
